

Issue Type	ID	Summary	Priority	Status	Story Points
Story	ONCC-26e	As an Existing User, I want a record of saved code so that, I can retrieve my saved code whenever required	High	Done	8
Task	ONCC-27e	Aggregation of the Tables for sharing code	High	Done	N/A
Task	ONCC-29e	Integration of DynamoDB + AWS	High	Done	N/A
Task	ONCC-28e	REST - API PUT, UPDATE, DELETE command	Medium	Done	N/A

Sprint 5 Artifacts

RETROSPECTIVE

SPRINT 5

What went well +

Good Sync up with members, and documentation work.

+ 6

Finalized AWS cloud platform and successfully registered all team members. Also, finalized and updated dynamo DB database.

+ 6

Created DynamoDb table, IAM role, resources, and configured method. Successfully integrated DynamoDb with API Gateway.

+ 5

Successfully resolved issues connecting MongoDB to the webpage. which was used during CS691.

+ 4

What needs improvement +

Needs to work on the mapping between MongoDB and DynamoDb components.

+ 5

More planning and focus on sprint tasks. Especially handling the migration of databases on the cloud.

+ 6

Next Steps +

Will be working on the migration of the database from MongoDB to DynamoDB.

+ 5

Will be adding more functionality like save and share code on the web page and integrating it with cloud.
