Sprint 7 Report

Retrospectives

What went well

- Successfully addressed all the feedback, comments and concerns in the documentation
- Minimalized the number of tasks based on the priority and severity
- Brain-stormed to find out the risk of meeting the deadline and acted wisely.

What needs improvement

- Needs diving deeper on each task to optimize the planning.
- Based on severity level prioritize the fixing the issues or addressing the feedback
- Needs to invest more time on discuss while planning and development.

Next Steps

- ullet Schedule ameeting for adetailed discussion on optimizing the planning. Owner : Brandon and Ramesh
- Plan how to prioritize the severity level of the issues, feedback or task. Owner: Anchal & Harshada
- Come out with the plan how can we improve the discussion on planning and development.
